

THE MORNING APPEAL.

The Official Paper of Ormsby County.
SUNDAY.....FEBRUARY 10

ALL SORTS.

Chubbuck is still keeping up his war on high prices for meat.

Wm. Bryson is arranging to start up the Agricultural Pavilion as a skating rink.

W. H. Bryson is agent for a new halter strap. It fills a long felt want and no mistake.

The Senate has passed a bill appropriating \$500,000 for a cable to the Sandwich Islands.

Sybil Sanderson has decided not to wed Mr. Terry, the Cuban millionaire, because of his attentions to Mrs. Langtry.

Charles Fair and his sister are now on speaking terms once more, and ready to clasp hands over their dead papa's millions.

If the Silver men in the House join the solid wall in the Senate, the Silver party will make a chopping block of their gold bug opposition in 1896.

The fifth engagement of Miss Anna Gould, daughter of Jay Gould, is announced. She has been a short on the matrimonial market for some time.

He—That cat made an awful noise in the garden last night.

She—Yes, I suppose that since he ate the canary he thinks he can sing.

AGENTS WANTED.—Free prepaid outfit to energetic men. Several of our salesmen have earned from \$70 to \$100 a week for years past. P. O. Box 1871, New York. 1w

It is claimed that Rudolph Spreckels put up the sugar for the Hawaiian insurrection. It didn't take much as a few base ball bats and half bricks will turn the Islands upside down.

In his new book Dr. Parkhurst asserts that the pulpit is greater than the press, but if he had really believed that he would have contented himself with preaching his book instead of printing it.

The APPEAL is in receipt of a copy of the report of the Managing Director of the Nevada exhibit, Midwinter Fair, and the Report of the Nevada State Board of World's Fair Commissioners, through the courtesy of J. A. Yerington.

Turf, Field and Farm says that Mr. Henry C. Jewett expresses the opinion that in less than two years the American people will be forced to acknowledge in road and track horses the demand now exceeds the supply. There is no sale for common stock, but the prices for good animals are advancing.

Dr. Tyman of Modesto wandered away from home some years ago, and was supposed to be dead. His relatives at once fell upon his estate. He was pronounced dead, but afterward returned alive and well. He is trying to get the Supreme Court to annul the death record, but having no legal evidence to refute the record, they are unable to do so. The time for legally objecting to the death finding has passed, and though all the justices have talked the matter over with him, they can find no way to reverse their action. To them he is still dead as a door nail.

Edgar O. Sprague (better known as O'Grave) died in the county hospital Thursday. He was a well known character in this section, having lived in the country for years, leading a nomadic life. About two weeks ago, while working at a wood camp in the mountains, he had both feet badly frozen. He was taken to the hospital, but blood poisoning set in and resulted in death. Deceased was a native of Massachusetts, and served in the U. S. marine service for many years. The funeral took place Friday under the auspices of McDermitt Post G. A. R.—Silver State.

Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. Benton's Liniment is for sale at all drug stores

When Baby was sick,
We gave her Castoria.
When she was a Child,
She cried for Castoria.
When she became Miss,
She clung to Castoria.
When she had Children,
She gave them Castoria.

Weather Bulletin.

(Copyright 1895, by W. T. Foster.)

St. Joseph, Mo., February 9.—My last bulletin gave forecasts of the storm waves to cross the continent from February 12th to 16th. The next will reach the Pacific coast about Feb. 16th, cross the western mountain country by the close of 17th, the great central valleys from the 18th to 20th and the eastern States about the 24th.

This wave will initiate a period of remarkable weather and the country will experience almost everything from the tornado to the blizzard. Extremes of weather in nearly every respect may be looked for, but more cold than heat, more rain and snow and sleet and hail than drouth.

In the north particular attention should be given to the protection of live stock during the last half of the month and in the south the early crops, particularly of gardeners, will suffer from cold rains, sleet and hail.

Tornadoes may be expected in the Southern States and severe cold waves in the north. A cold wave of some importance will also cross the continent from 9th to 11th. I cannot answer correspondents unless they will enclose stamps.

The warm wave will cross the western mountain country about the 16th, the great central valleys about the 21st and the eastern States about the 23rd and will give the eastern States a blizzard.

The unusual weather of the 1895 crop season will take farmers and others by surprise, especially those who do not carefully read and study these weather bulletins.

Intelligent farmers and dealers will study the future of the weather, the former planting that which will best succeed in yield and price and the latter arranging his stock in trade to correspond.

Warm Water for Stock.

Many farmers in the East are in the habit of giving their cows warm water for their drink in cold weather, claiming that they yield one-third more milk than when given cold water. Some of our Carson Valley dairymen should try this plan.—Courier.

The best way to get good water for stock in winter is to sink artesian wells. The writer has one at his ranch 136 feet deep. It runs 40 gallons of water per minute and keeps a good sized fish pond full the year round.

The water is tepid, so much so in fact that it is unpleasant to drink in summer by reason of its temperature. In winter the space near the well grows green grass, and cattle and horses delight to drink there. In winter stock usually drink ice water, and the chill to the system requires a large amount of food to counteract. The tepid water enables them to do well on less hay. Artesian wells are a great saving to stockmen wherever they have been in use, besides giving them absolutely pure water. If they were sunk deep enough, the belt of boiling hot water which underlies the State would be tapped.

State Dental Society.

The Nevada State Dental Society convened Friday with Doctors Conwell, Thomas and Henderson of Virginia, Thompson, Bulson, Phelps, Chandler and Basford of Reno, Hudsons of Hawthorne, Cavell, Wardlaw and Fulstone of Carson in attendance. Dr. Conwell presided. After a lengthy discussion the laws of the National Dental Association were adopted and a bill providing against the practice of dentistry by quacks was sent to the Legislature.

After all business was transacted the Carson dentists, Doctors Wardlaw, Cavell and Fulstone escorted their visiting brethren to a dainty repast set in their honor.

The Inaugural Ball.

Now that the date of the Inaugural ball is settled upon, the coming of such a grand affair is naturally the cause of considerable discussion. Among those who are not directly interested, the action of the committee in charge is receiving severe criticism for having placed the price of admission at \$10, which they consider outrageously high considering the hard times. There is a movement on foot, however, inaugurated by certain State officials to have the admission price reduced to \$5. Of course the Tribune is in sympathy with the "V" end of the procession and hopes that the committee will make the reduction.—Tribune.

Tickets will be five dollars.

The Keeley Cure Sufficient.

A young woman delegate of Reno's Salvation Army was in Carson yesterday selling the official organ of the army, "The War Cry." To a Tribune reporter she said she had met with excellent success, the Legislators having invested liberally in the much needed literature. Upon being asked why a branch organization was not formed in Carson, the pretty little woman in blue with a sanctimonious air, replied that the Keeley Cure was a sufficient reformer for Carson sinners.—Tribune.

A New Industry.

As a good illustration of home industry in this State one has but to turn to a recent case which shows that in the future it will not be necessary to send to New York for surgical and obstetrical instruments.

Not long ago a woman living in Carson Valley was attended by some physicians who decided to perform the Caesarian operation and a blacksmith at Gardnerville named Crummie is authority for the statement that he made the instruments for a Carson physician with which to perform the operation.

If a blacksmith can make surgical instruments on short notice it might be a good idea to start a regular factory here in this State.

His sign should read: "Blacksmithing and horseshoeing. Surgical and obstetrical instruments made at short notice. Terms reasonable."

A Lost Son.

The following letter speaks for itself:

San Francisco, Cal. Feb 8, 1895.

MR. S. DAVIS.

DEAR SIR:—A poor old widow in Scotland is endeavoring to learn whether or not her only son is still alive, and I have been asked to enlist your sympathy and influence in aiding her. The man's name is Myles Conway, last heard of in 1882, from Gold Hill, Virginia City, Nevada. At that time he had a claim with good prospects. Perhaps you would kindly insert a little notice in your paper making enquiries.

The mother's name and address is Mrs. Conway
48 Overnewton St. West Glasgow, Scotland.

Yours sincerely,
CHAS. B. SEDGWICK,
1120 Folsom St.

CHURCH NOTICES.

PRESBYTERIAN—Services at 11 A. M. and 7 P. M. Morning subject, "A Glorious Church." Evening subject: "A See et Disciple." This is the fourth of a series of lectures on New Testament characters. Everybody welcome. FRANCIS L. NASH.

ST. PETER'S—Services Sunday Feb. 10th. (Septuagesima.) Holy Communion at 8 A. M. Morning Prayer, Litany and Sermon at 11 A. M. Sunday school at 12:15 P. M. Evening Prayer and Sermon at 7 P. M. J. W. HYSLOP, Rector.

M. E.—Services at the M. E. Church tomorrow at 11 A. M. and 7 P. M. Morning subject: "Calling and Election." Evening subject: "The Taking of Bribes." All are invited.

W. J. MITCHELL, Pastor

Frozen to a Brakerod.

A brakeman on the Moline & Ohio railroad, on reaching Oroville, Ill., saw a man standing on the bumpers and clinging to the brakeroad. As he paid no attention to the brakeman's commands to alight, he grabbed him by the arm and attempted to pull him down. The man was immovable and an investigation proved he was frozen. His hands were so tightly fastened to the steel that it is said the bones were broken and the flesh torn in unloosening the body.

"Two of a Kind."

There was a packed audience last evening to see "Two of a Kind." There was some fair singing and funny situations, but on the whole the audience went away inclined to feel that there was not three of a kind. Truly Shattuck was the most prominent in the company. The play was very ordinary.

J. W. Hellman, President of the Nevada Bank was shot at on Van Ness Ave. S. F. yesterday by Wm. Holland. The shooter then committed suicide. He had been arrested a few days ago for attempting to pass a forged check on the bank.
